

# OILIND LEASING SERVICES

Preserving Life One Person at a Time

## Creative Solutions to Controlling Costs.

As a leader in the field of safety and safety-related products and services for over 40 years, Oilind Safety, Inc. has also earned a reputation as an expert in asset management through safety-related equipment leasing. With over 36,000 pieces of safety equipment in stock across 20 locations throughout the United States, we have the inventory to help you control those “soft costs” that take away from the bottom line. There’s no better way to manage freight costs, downtime, unscheduled labor demands, and lead times from outside vendors for repairs or deliveries — while boosting your cash flow.

- Leasing offers tax deductions versus capital expenditures.
- The Oilind service program resolves maintenance scheduling chaos.
- We provide complete documentation for your compliance records.

Creative solutions to controlling costs. That’s what you get with Oilind Leasing Services.

## Oilind Safety's Leasing Services improve logistics, and maximize your bottom line.

Our experienced personnel and wide variety of safety leasing equipment allow us to create an Asset Management Program tailored to your specific needs. Leasing from Oilind Safety helps you to:

- Maintain cash as a flexible asset while preserving operating capital
- Reduce monthly costs compared to a capital lease program
- Upgrade equipment every three years — or mid-term — to keep pace with current technology
- Keep factory warranties on logistics equipment for most, or all, of the lease contract
- Eliminate repair costs and minimize down time
- Write off 100% of asset management / logistics for tax purposes
- Gain a hedge against inflation (fixed rate for up to three years)
- Concentrate on your core competencies
- Eliminate selection, purchase and disposition costs
- Leverage Oilind Safety's *flexible* fleet rentals for specialty contracts or peak demand periods
- Benefit from the support of more than 1,100 Airgas locations nationwide

## Service Advantage™ Plus: another Oilind Safety customer benefit.

Our Service Advantage™ Plus program is a hands-on service program designed to properly maintain your leased equipment so you can concentrate on your business. The program is field-tested and implemented by certified technicians to ensure the highest quality service backed by the strength of Oilind Safety. Services include:

- Factory-trained technicians
- Scheduled maintenance plans
- Calibration services
- "How-to" training both on site and in shop

## Safety...and much more.

With an expansive national footprint, an extensive product line, industrial construction specialist expertise, Red-D-Arc® welding rental equipment, complete industrial gas resources and safety training programs, Oilind Safety and Airgas provide the complete solution for all your on-site safety, MRO and gas supply needs.
